

What you get.

Priority support so you don't have to wait.

You know your website is safe because it's not hanging out with other infected sites in cyber-space.

If something goes wrong we fix it for FREE.

You pay less for website work than everyone else.

You can put your website to the back of your mind.

Want a new Plugin? With access to over £600 worth of Plugins, ask if we can get that for free for you.

Exclusive access to our priority client Helpdesk.

You don't need to check your website is up & online.

You can easily see what we've been doing to take care of your website in your monthly website report.

From £49 per month

How we do it.

Daily security scans to identify vulnerabilities or malicious files. We then remedy any issues.

Daily backups to make sure you don't lose your website.

Malware removal if we find any infection.

Weekly performance scans to identify any technical areas for improvement.

SSL certificate installation and website configuration.

Super-fast hosting on secure servers which are shared only with our other secure websites.

Security updates. We take care of all security, defence, and WordPress updates for you.

24/7 uptime monitoring to check every minute of the day that your website is online.

Constant security firewall.

Monthly report to keep you updated on your websites safety and security.

Technical support and fixes included.

No risk. Cancel at any time.
